## KINNEY IS KILLED BY ST. PAUL TRAIN

A Janesville Man Meets Death Near Eagle.

FELL IN FRONT OF MORNING PASSENGER.

Daniel Ryan, for Whom the Dead Man Worked, Received a Letter Saying Kinney Would Be Home This Noon, and a Telegram Announcing His Death, at About the Same Time—Was Returning from Elkhorn Fair.

John Kinney fell down in front of the cars this morning and was literally torn to shreds.

Kinney left Janesville last Thursday to attend the Elkhorn fair. He had been driving the hearse for D. Ryan, and told one of the men at the barn that he intended to have a good time for a day or so at the Elkhorn fair. The next heard was the news of his death.

The morning passenger from Milwaukee to Janesville was a mile and three-quarters west of Eagle when the engineer saw a man on the track. The man stepped aside as he heard the whistle, and then as the train approached he fell full length across the rails. Passengers on the train were jerked forward, so abruptly were brakes set, but it was only an instant before the train went over the prostrate figure.

The train was a long way past the scene of the tragedy before it could be stopped. It was decided not to return but to send back a flagman and have a hearse sent from Eagle. So badly mangled were the remains that they were identified with great difficulty. Part of a letter found in a coat pocket finally gave a clue.

The dead man's mother, Mrs. Patrick Kinney, lives on River street and was notified of her son's death by D. Ryan as soon as the dispatch was received.

Mr. Ryan received a letter from Kinney at 10 o'clock this morning. It was written at 2 o'clock yesterday afternoon, and said that Kinney would be here to go to work at noon today. Less than half an hour later Mr. Ryan received notice that Kinney was dead.

Kinney's baggage is at the depot, having been left there by the train. It is supposed that Kinney got off the Elkhorn train at Eagle, to wait for the passenger train from Milwaukee—which would bring him to Janesville—and started to walk down the track toward Palmyra.

Mr. Ryan left for Eagle to get the remains at 4:40 o'clock this afternoon.

## STATE BIKE MEET MAY COME HERE

LOCAL BUSINESS MEN ARE  
BACKING PLAN.

Would Be Necessary To Raise \$3,000 in Cash To Guarantee Expenses, but This Can Be Done, It Is Said.—Jamesville Is Much Favoured.

Efforts are now being made to secure the State L. A. W. cycle meet for this city in 1899. In order to get the meeting \$3,000 in cash would have to be guaranteed by responsible persons. At the state meeting held in Green Bay, Jamesville men were given the assurance that the Bower City was in favor of most of the delegates through the state. Oshkosh is also said to desire the meeting, but as the meet this year was held in that portion of the state, the chances now favor Jamesville.

The fastest riders in the country will compete and the attendance would be composed of cycle lovers through the entire west. Special trains carrying Wisconsin delegations would be run and reduced rates would be made from all points. The meeting lasts three days. To successfully carry out the meeting a cycle track would have to be constructed at a large cost.

State Consul Rotter, of Milwaukee, in a letter to a local friend, stated that representatives from Jamesville had called on him to ascertain what Jamesville's chances were. Consul Rotter states that he believes that the Bower City would make an ideal meeting place, and is favored by League officials for the reason that southern Wisconsin has never had the state races.

At Milwaukee next month a meeting of delegates from every portion of the state will assemble and the date and location will then be decided on.

Local men are said to be backing the venture.

## KELLY'S FLYER IS LAID UP

"Directum Kelly's" Attack of Catarrhal Fever Severe—Sporting Notes

It is quite improbable that John Kelly will drive his speedy namesake in another race this year. To all appearances Directum Kelly is finer and heartier and better than he has been at any time this year, but horsemen say that when the catarrhal fever once fastens itself upon a trotter he is just about as bad as being used up for the season. James Butler will take no chance whatever with the great son Direct and unless he gets entirely well he will not start again until next year. Gayton, 2:10, who is fast recovering from the mishap which overtook him at Readville, is likely to represent East View farm in the Transylvania race.

## LEAF MARKET OPEN UP EDGERTON WAY

BUYER STARTS THE BALL  
A-ROLLING.

W. S. Brill Buys About One Hundred Acres at Six Cents for Wrapper and Binder Grades—General Movement Is Expected at Any Time—Some Sales Made.

Edgerton, Wis., Oct. 5.—The market for the '98 tobacco crop has been opened in this locality during the week by William S. Brill, representing Kerbs, Weinheim & Schiller, large New York cigar manufacturers, who has contracted for about 100 acres of new tobacco at prices ranging about 6 cents for binder grades, to be delivered in the bundle. This firm consumes large quantities of Wisconsin leaf, and if the quality comes up to their expectations their purchases may equal those of the '96 crop, when they packed about 5,000 cases. A general movement of the crop is hardly looked for at this early date, and none of the other dealers are yet in the field except for the purpose of gathering samples to be forwarded to the eastern dealer. When the verdict of the eastern dealers is known then the buying may become more general.

A few sales of old leaf from first hands has taken place recently. C. M. Gager has picked up about 200 cases. The Warner Cigar company, of Chicago, purchased a lot of '95 and '97 tobacco at 12 cents marked. C. L. Culton reports the sale of 500 cases of '97. Shipments out of storage at this point reach 762 cases, or fifteen car loads, to all points for the week past. Since last report 875 cases of cigar leaf were reported from New York.

## GAGAN DAMAGE SUIT HEARD AT ELKHORN

CASE AGAINST THE CITY IN  
COURT.

City Attorney Burpee and Attorney J. J. Cunningham Have the Matter in Hand for Defendant and Plaintiff Respectively.—Mrs. Gagan Seeks Pay from City.

One of the city of Jamesville's sidewalk damage cases is now occupying the attention of the Walworth county court. Mrs. Mary Gagan, who resides near the city limits on Pleasant street, has brought suit in the sum of \$5,000 for injuries alleged to have been received on May 15, 1895, as the result of a defective sidewalk. City Attorney F. C. Burpee and Attorney J. J. Cunningham were in Elkhorn today on business that involves the case. The suit will be tried before Judge Fish, of Walworth county.

The plaintiff is an elderly woman. In her complaint she alleges that she was badly injured on the morning of May 15, 1895, on Pleasant street, while returning home, and that such injuries resulted from a fall caused by a defective sidewalk located in front of the Calkins property. The sidewalk was constructed of three running planks, and the alleged defective spot was the result of the removal of several feet of plank, thus making an opening, into which Mrs. Gagan fell, spraining her shoulder and otherwise injuring her, it is claimed. Mrs. Gagan put her case in the hands of Attorneys Mahoney & Cunningham, who brought it before the Rock county circuit court, a change of venue being taken to Walworth county.

## BOLTS AND BOLTS

Oshkosh Northwestern—Wheels within wheels, complications and bolts within bolts appear to be the confused and somewhat chaotic condition of democratic politics. In this state fusion with the populists was shattered on one side while the gold democrats refuse to be comforted on the other side because of the endorsement of the Chicago platform. At the same time a populist now assumes a place on the state ticket while an ultra-populist, free silver element is organizing a bolt against the entire state ticket because a gold democrat was nominated for lieutenant governor. This entanglement is certainly unique. The Bryan democrats adopted a populist platform and bolted the populist proposition for a fusion on candidates only to have the gold men and the extreme free silver men in turn bolt this mongrel combination. The same sort of an entanglement is developing in New York. The state democratic convention shows signs of ignoring the Chicago platform. A meeting of the free silver element was held last night to organize a bolt should the convention take that course. But at the meeting of bolters disagreement arose and about half of those present bolted the bolters and held a separate meeting. The bolters who remained passed a resolution providing that should the democratic convention ignore the Chicago platform they will proceed to nominate an entire independent state ticket and place it on the ballot by petition. Surely the Chicago platform is the Banquo of the democracy whose ghost is destined to return time and again to disturb the party feast.

Wisconsin democrats realize that under the circumstances they cannot trust each other. Hence they are suspicious that every other democrat has a knife in his sleeve. The Milwaukee Journal says: "If Hobson were not a democrat, he doubtless could get a job trying to a certain craft that is going to the bottom here in Wisconsin." The democrats need not feel that way. They can safely trust Hobson. He is a reliable man, and the sooner Chairman Peck sets him to work on the sinking democratic craft, the better for the old direct.

Milwaukee democrats will do well to have a cure. They should not try to force Edward M. Hyzer into their party. Mr. Hyzer is a republican of the scratch-and-bite order, and when he "mixes" with democracy, democracy will get scalped.

The Kenosha Daily Gazette, democratic, says the referendum plank in democratic state platform is "flap doodle, thereby confirming, in a degree,

at least, the testimony of the flap-doodle expert, the Hon. Robert Schilling, of Milwaukee Wis.

Governor Scofield has issued an appeal to the people to provide relief for the sufferers from the Wisconsin forest fires. Governor Scofield has made a personal investigation in the burnt district. Hundreds of families are homeless.

Edward M. Hyzer has all the qualities that win men friends. Consequently, it is not so strange, after all, that Milwaukee democrats insisted on running for district attorney—regardless of the fact that he is a republican.

T. E. Ryan, of Waukesha, will open the democratic state campaign at Green Bay, and in so doing, will probably give a realistic exhibition of a man spouting fine language when he feels more like swearing and wielding an ax.

Six expert electricians, alleged to have been imported in violation of the contract labor law will be returned to Berlin from New York. That's right. There are wire-pullers enough in New York now.

Several of the men who took a prominent part in the Milwaukee county democratic convention must have had to carry their names coiled up on a hose reel.

General Merritt says the Philippines are not capable of self government. But there is no indication that the ability to govern themselves is necessary.

Judge Sawyer, the democratic candidate for governor, is an "anti-corporationist," yet he admits that he has served railways as an attorney and taken his pay in passes!

Owing to ruinous competition with Southern cotton mills, New England manufacturers contemplate substituting machinery for the production of silk fabrics exclusively.

A delegation of Oshkosh business men have gone to Kalamazoo for a junket. They went via Kankakee, and will return via Medicine Hat and Charlevoix.

The steamer Cottage City has arrived at Victoria, from Alaska, with 200 passengers and 7,000 cases of salmon, 400 cases of blues, but no gold.

The masons of Aberdeen, Scotland, struck for an increase of pay to 11 cents per hour. How would the American masons like to work for that wage?

A Stevens Point man who placed \$16,500 in a tin box and buried it in his back yard, was robbed of the whole outfit. "Sun do move."

"From what we can learn golf is tiddlywinks on a large scale" says an exchange. But that may not be the fault of the game.

Uncle Sam has fought and won a war, and has \$811,600,754 on hand.

## LAUNCHING WAS SUCCESSFUL.

Impressive Baptism of the Magnificent Battleship Illinois.

Newport News, Va., Oct. 5.—The mammoth United States battleship Illinois, one of the three latest additions to the navy and probably the most powerful fighting machine afloat, was launched Tuesday under auspicious circumstances. Miss Nannie Letter, daughter of L. Z. Letter of Chicago and Washington, broke a bottle of American champagne on the big ship's bow and said: "I christen thee Illinois." Chicago and Washington were represented by large delegations of prominent men and women, while the nearby cities and villages practically emptied themselves of their population in order to assist the state of Illinois in honoring the baptism of the great ship which is to bear the name of the prairie state. A conservative estimate places the crowd of visitors at fully 20,000, and it is believed that fully 30,000 persons witnessed the ceremonies attendant upon the launching. The weather was ideal.

Secretary of the Navy Long and other government officials came down on the famous Gloucester. The other men-of-war detailed to be at the launching were the New Orleans and the Montgomery. The country's famous sea-fighters were well represented by Capt. "Bob" Evans, Capt. Clark of the Oregon and Capt. Rogers.

Following the launching there was a banquet in the afternoon. President Olcott of the shipbuilding company had suggested these additional speakers and their topics: Secretary Long, "The Navy"; Gov. Tyler of Virginia, "Virginia"; Judge Hamlin of Shelbyville, Ill., and Senator Orville C. Berry were two of the speakers.

Chief Constructor Hichborn gives the following description of the dimensions and equipments of the great battleship. Length on load water line, 363 feet; beam, extreme, 72 feet, 2½ inches; inches thick at the bottom, except at the forward end, where it will taper draft, on normal displacement, of 11,525 tons, 23 feet, 6 inches; maximum displacement, all ammunition and stores on board, 12,325 tons; maximum indicated horsepower (estimated), 10,000; probable speed, 16½ knots. The main battery will consist of four 13-inch breech-loading rifles and fourteen 6-inch rapid-fire guns. The secondary battery will consist of sixteen 6-pounder rapid-fire

NAME THE OFFICERS  
FOR COMING YEARGOOD TEMPLARS SELECT THEIR  
LEADERS.

Rev. W. H. Clark, of Ripon, Is Chosen  
Grand Chief Templar, and Lieuten-  
ant-Colonel B. F. Parker, of Mil-  
waukee, Made Grand Secretary—  
Resolutions Adopted—Other Notes

The annual meeting of the Good Templar Mutual Benefit Association was held at 8 o'clock this morning. The question of making the secretary of the association also the canvassing agent and requiring him to give his entire time to the work of the association was presented and elicited an earnest discussion which consumed all the time of the session. The matter was laid over for final action until tomorrow morning.

The Grand Lodge was called at 9 o'clock. The special order was the action on the recommendation of the committee on Good Templar training school that this Grand Lodge purchase forty shares of stock in this association at \$5 per share. This question elicited considerable discussion but was carried by an unanimous vote.

A by-law was enacted, providing that all persons who have formerly been members of this order and have lost their standing, that if they are reinstated, and have not violated their obligation, that they shall retain all the honors they may have formerly attained.

Hon. S. D. Hastings presented the report of the committee on prohibitory action which recommended that we memorialize the national authorities to enact laws and make such provisions that in all territory hereafter acquired by the United States, or over which it may have control, that the manufacture, sale and importation of all alcoholic beverages be stopped. This report was unanimously adopted.

The report of the literature committee recommended that the Grand Lodge subscribe for one hundred copies of the Wisconsin Good Templar (which is the official organ of the Grand Lodge jurisdiction) for gratuitous distribution by the field members, and Grand District lodge officers. This report was adopted. The following officers were elected:

**The New Officers.**  
Grand Chief Templar—Rev. W. H. Clark, of Ripon.  
Grand Counsellor—Jasper Sexton, South Wayne.  
Grand Templar—Agnes C. Troller, of Oshkosh.

Grand Superintendent Juvenile Templars—H. A. Larson, of Green Bay.  
Grand Electoral Superintendent—Hon. E. W. Chafin, of Waukesha.  
Grand Secretary—Lieut. Col. B. F. Parker, of Milwaukee.  
Grand Treasurer—Mrs. L. W. Parker, of Milwaukee.  
Past Grand Chief Templar—Will S. Frazier, of Madison.

The fact that everyone of these were elected amid the greatest enthusiasm, by the unanimous vote of the Grand Lodge, without any shies having been previously made, or any wire pulling whatever, speaks very much for the harmony that pervades this body of earnest workers for the common good of all classes and conditions of men and women.

**Tuesday Afternoon**  
The main feature of the afternoon session was the memorial service in honor and in memory of Capt. J. F. Cleghorn, who has died during the year.

Capt. Cleghorn was one of the foremost members of the order in the world. And certainly none in Wisconsin excelled him in the hold he had upon the hearts and confidence of the members of order. He was one of the most influential men in the supreme councils of the order. He was wounded twice in the war of the rebellion, and was retired for meritorious conduct, and retained his commission until he died.

The grounds lately purchased by the Good Templars' training school near Waupaca, were named Camp Cleghorn in honor of him.

**Tuesday's Evening Meeting.**  
The public reception at the Congregational church Tuesday evening under the auspices of the local lodge was a decided success. The large audience room was filled with an appreciative and enthusiastic audience. The music by the Y. M. C. E. W. CHAFIN TALKS  
OF THE CAMPAIGNPROHIBITION CANDIDATE ON  
HIS CHANCES.

He Intimates That He Expects Support From La Follette Men, and the Disgruntled Irish Democrats— Criticizes Republican Pledge of Respect For "Rights of Others."

Eugene Washington Chafin, prohibition nominee for governor of the state of Wisconsin, arrived in the city last evening to attend the Good Templars' grand lodge.

Mr. Chafin says that never in the history of the Badger state has the political outlook for the prohibition party been so bright so it is today.

"I started out some days ago doing campaign work," said Mr. Chafin, "and so far this season I have made ten speeches. The republicans have a clause in their platform that was put there for no other purpose than to please the whisky loving element."

Mr. Chafin then pulled from his pocket a printed copy of the republican platform.

"Here is the clause that I refer to," he said, "and it reads as follows: 'We believe in perfect liberty of conscience, non sectarianism in public affairs, separation of church and state, in free common schools, and the utmost independence of individual thought, speech and action consistent with law and the rights of others. More particularly do I refer to the last dozen words,' continued Mr. Chafin.

In referring to the democratic party, the prohibition nominee said it never pretended to be anything but a whisky party, and that nothing else was ever expected of it. "In the city of Milwaukee," he said, "a regular whisky ring exists, and it is in strong working order, too."

"Do not know whether I will be elected governor or not," said Mr. Chafin, "but there is one thing certain, more prohibition votes will be counted this fall in Wisconsin than were ever before polled. The La Follette men are mad because their man was not placed in nomination by the republicans, while hundreds of Irishmen in the democratic party will not vote the ticket because Sawyer was placed in nomination. In our party all is harmony. There is the situation just as it appears to me."

Mr. Chafin resides in Waukesha. He was born in the town of East Troy, Walworth county, forty-five years ago. For the past thirty-one years he has been a member of the Good Templars order and has held various high offices.

## Coleridge's Ready Wit.

He who watched wits with the author of "The Ancient Mariner" had indeed a lively task before him, for Coleridge was never caught napping. The poet was so awkward a horseman that his riding often attracted comment of anything but a complimentary nature. One day he was riding along the turnpike road in the county of Durham when a wag who met him fastened upon him as an excellent subject for sport. Consequently he drew rein and said in an impertinent drawl: "My graceful friend, did you happen to meet a tailor on the road?" "I'm inclined to think I did," said Coleridge meditatively: "I was not sure at the moment but he said something about my meeting a goose farther along the road." The wag put spurs to his horse, and the poet jogged calmly on his way.

## Excessive Coffee Drinking.

The Moors are inveterate coffee drinkers, especially the merchants, and they sit in their bazars and drink continuously the whole day long. It has been noticed that almost invariably when these coffee drinkers reach the age of forty or forty-five their eyesight begins to fail, and by the time they get to be fifty they become blind. One is forcibly impressed by the number of blind men seen about the streets of the city of Fez, the capital of Morocco, and this is invariably attributed to the excessive use of coffee.

The Rusk Lyceum met last evening at the High school building. ## TO CURE NERVOUS DYSPEPSIA

To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean, Make a Test of Stuart's Dyspepsia Tablets.

## INTERESTING EXPERIENCE OF AN INDIANAPOLIS GENTLEMAN.

No trouble is more common or more mischievous than nervous dyspepsia. People having it think that their nerves are to blame, are surprised that they are not cured by nerve medicines and spring remedies; the real seat of mischief is lost sight of; the stomach is the origin to be looked after.

Nervous dyspepsia often do not have any pain whatever in the stomach, nor persons any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach, so much as in nearly every other organ: in some cases the heart palpitates and is irregular; in others, the kidneys are affected; in others the bowels are constipated, with headaches; still others are troubled with loss of flesh and appetite, with the accumulation of gas, sour risings and heartburn.

A. W. Sharper, of No. 61 Prospect St., Indianapolis, Ind., writes as follows: "A notice of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any favorable result. They sometimes gave temporary relief until the effects of the medicine wore off. I attributed this to my sedentary habits, being a book-keeper with little physical exercise, but I am glad to state that the tablets have overcome all these obstacles, for I have gained in flesh, sleep better, and am better in every way. The above is written not for notoriety, but is based on actual facts."

Respectfully yours

A. W. Sharper,

61 Prospect St., Indianapolis, Ind.

## PLANS OF THE PRESIDENT.

It Is Said He Will Recommend a Large Standing Army.

## WANTS 100,000 TRAINED MEN.

He May Also Make the Proposition That Native Regiments Be Formed in Cuba and the Philippines—Additional Instructions Sent to Paris.

Washington, Oct. 5.—From the intimations made by the cabinet officials, giving an idea of the recommendations they will make in their annual reports to the chief executive, which will soon be sent in, it is probable that the president's message will be of great length. It will review the war and make important recommendations concerning the islands which have been acquired. These recommendations will necessitate a large increase in the standing army. On good authority, indeed, it is understood that the president's suggestion to congress will call for the establishment of a regular army of 100,000 men and will give an idea of the use these men will be put to in the future.

Included in this organization of a large regular army, however, will be a provision for native regiments in all the islands. It is thought by the president that this disposition shown by the government to trust the natives will be productive of good results in the governing of the islands. If the natives take to this plan and maintain good regiments for police duty, they will be in better condition to manage the affairs of self-government when it is offered them. The president may recommend the organization of several regiments in Cuba composed of natives, and will probably say that the question of how long a standing army of 100,000 men will be needed must be left to future events, although it will be needed for at least a year.

It is understood that a dispatch has been received at the White House from Chairman Day of the peace commission in Paris, and it is believed that additional instructions have been sent to Paris concerning the Philippines, although they do not materially affect those originally given. It is now believed that the commission's work will be completed in a short time and that the Americans are prepared to meet any contentions that the Spaniards may make.

## NO MUSTER OUT AT PRESENT.

Administration Recognizes Volunteers Must Be Held.

Washington, Oct. 5.—Strong influences are still being exerted to secure the muster out of volunteer regiments in several states. The president and secretary of war, to whom the requests of congressmen and others are brought, are refusing uniformly to consider any petition. The administration recognizes several reasons why the combined force of regulars and volunteers should not be depleted at present. Since more than 100,000 volunteers were designated for muster out there have been in the combined army only about 150,000 officers and men. Plans for occupying thoroughly Cuba and Porto Rico, as well as part of the Philippines, make it impossible to dispense with any considerable part of the present forces. Sickness among the troops in Cuba and Porto Rico, which cannot be avoided at this time of year, indicates that regiments will have to be withdrawn from there from time to time and their places must be filled with others which have been held in reserve.

## Gen. Miles Opposes Alger.

Washington, Oct. 5.—Gen. Miles is making a vigorous fight against the proposition to throw the army of occupation into Cuba this month. He insists the American troops should not be sent to the island before November, and preferably not until the latter part of that month. This promises another clash with Secretary Alger, for it is understood it was he who proposed at the cabinet meeting last week to begin the movement between Oct. 15 and Oct. 20. Gen. Miles' military propositions have been justified so many times during the war that he is likely to win this bout.

## Third Illinois Coming Home.

Washington, Oct. 5.—It has been decided to withdraw the entire force of volunteers now in Porto Rico, with the possible exception of the First regiment, United States volunteer engineers. The regiments to be withdrawn are six in number, the Third Illinois, First Kentucky, Sixth Massachusetts, Fourth Ohio, Sixteenth Pennsylvania, and Third Wisconsin. Four regiments have already been specifically designated for return to the United States, but the department will not say which ones have been selected. One of them is known to be the Third Illinois.

## President and Agoncillo.

Washington, Oct. 5.—A report is current that the Philippine agent, Agoncillo, who recently arrived in this city, representing the insurgent government, had been refused recognition by the president. It was impossible, however, to obtain from any authoritative source information on the subject.

# GOOD FLOUR IS A LUXURY

## For Rich and Poor.

A Luxury That Can Be Indulged In By All. America's Greatest Family Flour--Washburn-Crosby Co.'s Gold Medal--  
Reduced In Price to \$1.00 Per Sack.

Gold Medal Flour is true to its name--a medal winner. Has carried off the highest awards at Centennial Exposition, 1876; Miller's Exposition, 1880; World's Fair, 1893; Atlanta Exposition, 1895; and innumerable state and local fairs for the past twenty years. Gold Medal Flour is the culmination of time, money, work and study, and is the highest science of Flour making. The wheat from which it is made is selected and properly aged. It makes white, wholesome bread and the daintiest of pastries. In all our experience of selling Gold Medal it has never failed to please. Never a poor baking with it. There is but one Flour milled so widely known as Gold Medal and only one its equal in quality. It is the best of fancy patents and at \$1.00 per sack is remarkably low in price. The time to take advantage of a bargain is while the opportunity is open. We can't tell how long we will continue the \$1.00 price. The Flour is worth more money now than that.

## FREUN'S WHEAT WAFERS

### Dry, Fluffy Hair.

"In case the government weather breeder continues to give us this horrid, sticky weather that would take the kink out of a poodle's hair," said a clever girl, "I'll tell you a secret which will keep the curl in the most hopelessly straight hair. But it involves a return to the barbaric curl paper, I warn you. Well, first of all the hair must be thoroughly shampooed, and, by the way, this should not be done oftener than once in three weeks even in summer. It not only injures woman's crowning glory, but also makes it unmanageable. At night when retiring that part of the hair which is worn waved or curled should be wet in water in which a little borax has been dissolved and then rolled up on curl papers. Care should be taken not to have the hair too wet. Next morning there is a natural looking, light, dry, fluffy curl in the hair which defies even this sticky, muggy, curl destructive weather. Even this, with the intense heat, will not change the curls into strings before it is time to confine them in papers again."—New York Sun.

### A Summer Care.

At this season the health of the baby becomes a matter of much care and should engage the most intelligent thought of every mother. A well known physician was recently discussing the subject with a well meaning but flighty young mother and expressed himself thus: "Just leave him alone. Don't worry his temper into a passion and his nerves into fiddlingstrings by fussing. Have plain clothes—no ruffles and laces that will have to be changed four times a day. If he belonged to me, he would have a gingham gown and a sunbonnet and be turned loose in the garden, there to stay until the sun got too hot or meal or nap time came around. Have him sleep on a hair mattress and a hair pillow—no feathers or eider down to make him a good subject for pneumonia and sore throat, croup and fever. Don't let every woman in the hotel kiss him. Don't wheel him around in his carriage all day. Let him dig and get close to Mother Earth, and don't think he will be quite as white or quite as thin as he is now when you come back in September."

### League for Men's Rights.

The questionable persistency of the advocates of "women's rights" has

brought about the "revolt of man" which Sir Walter Besant foreshadowed and many others foresaw years ago. A man of fortune has founded a "League for men's rights" in order to try and obtain something like justice for his sex in the eyes of the law, as he has found a woman has many undue advantages in litigation and that the law, instead of being impartial, discriminates in the sharpest possible manner between men and women to the disadvantage of men. The strong minded women who have so often expressed their contempt for man as the merest worm seem likely to discover that even a worm, constantly trodden upon, will turn. There is certainly something humorous in a "man's rights" society, but it is none the less a sign of the times, which, perhaps "advanced" women may be wise not to ignore.—Chicago Times-Herald.

### A Woman Superintendent.

Miss Sarah G. Weedon has been appointed superintendent of the Charlestown (Mass.) almshouse. This marks a departure in the management of that institution. Hitherto it has been a general almshouse for both men and women, but after careful consideration the trustees for paupers have decided to make it an almshouse for women and aged couples, to resemble, so far as possible, an old ladies' home. Miss Weedon, the new superintendent, is a distant relative of the poet Whittier. Her previous experience is such as to fit her for the work she has undertaken. The trustees mean to accommodate from 100 to 150 pauper women at Charlestown, and the building, which is pleasant and comfortable, though old fashioned, can readily be adapted to their use.—Boston Woman's Journal.

### BASEBALL REPORT.

Scores of Yesterday's Games in the National League.

Chicago fell one point further behind Cleveland yesterday by merely breaking even with Louisville. Boston clinched the pennant by beating Baltimore again, Nichols against McJames. The Phillies pulled out their New York game in the ninth. Pittsburgh tied St. Louis, only to lose by having the score called back to even innings. Brooklyn and Washington were interrupted in the second inning by rain. Scores:

At Chicago—Louisville, 4; Chicago, 2; Chicago, 4; Louisville, 1 (six innings.)

At Boston—Boston, 4; Baltimore, 2. At Philadelphia—Philadelphia, 4; New York, 2.

At St. Louis—St. Louis, 7; Pittsburgh, 3.

Washington at Brooklyn—Rain. Games Today—Baltimore at Boston. Philadelphia at New York, Washington at Brooklyn, Cleveland at Cincinnati, Pittsburgh at St. Louis (two games.)
